MANAGE

The NEOED platform combines 3 modules – Recruit, Develop, and Manage – to automate and support the entire employee lifecycle.

THE MANAGE MODULE

ensures education institution HR teams stay organized across the entire campus community by centralizing employee data, payroll, and benefits.

Engineered to support the nuanced requirements of education institutions, the Manage Module unifies and streamlines Core HR, payroll, time and attendance, benefits, faculty and staff contract renewals, and employee document storage.

With a dashboard that enables employees to view and update their personal data, payroll details, and benefits elections, and managers to keep up with their team's tasks status or a team time off calendar, HR is able to eliminate time-consuming requests and reduce errors.

CENTRALIZE: HRIS

Provides a centralized hub that integrates with the entire NEOED product suite, which enables the seamless transfer of information between solutions, eliminating double entry and maximizing security.

Payroll

- Saves time by providing employees access to pay stubs, tax information, update their direct deposit information, and more
- Give employees the ability to view leave banks, request time off, and submit other leave forms

Benefits

- Manage benefits, elections, and open enrollment
- Enable employees to enroll in benefits and make updates when life qualifying events occur
- Configure notifications, reminders, and run reports to track participation, manage deadlines, and gain insights

Time & Attendance

- Accommodates online scheduling and timekeeping based on complex public sector payroll requirements including:
 - Leave types and accrual rules
 - Shift differentials and premiums
 - Multiple assignments
 - FLSA compliance
 - Union rules

STORE: EFORMS

- Store and centralize personnel files that span an employee's entire work history in a secure document repository with configurable access permissions
- Easily create electronic forms or convert existing ones that can be completed with online signatures, routed accordingly, and processed online
- Simplify processes like tuition reimbursement and grant funding tracking using eForms workflows
- Streamline the faculty and staff contract renewal process from a centralized hub

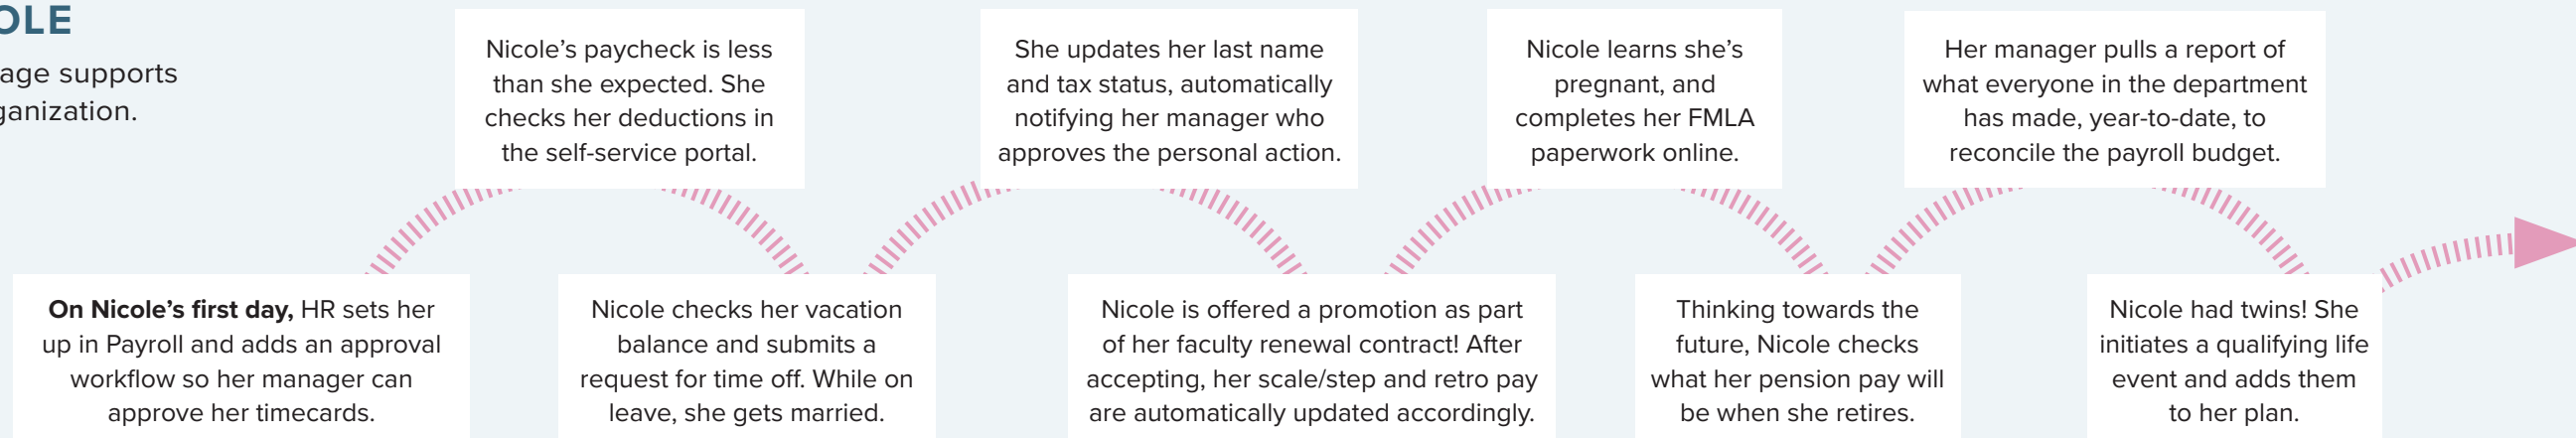

"NEOED really provides a comprehensive system that automates the entire data management process."
