NEOGOV

KATE ROGERS

Director of Strategic Marketing

NEOGOV

Agenda

Why the Employee Experience Matters in 2023

Common Barriers to a Positive Public Sector
Employee Experience

Strategies to Improve the Public Sector Employee
Experience

How NEOGOV HRIS can help

Q&A

A group of diverse business professionals, including men and women of various ethnicities, are gathered around a large conference table. They are all smiling and looking towards the camera. In the foreground, a woman with glasses is writing on a document with a blue marker. The document has a pie chart and a bar chart, and the words "BUSINESS PLAN" are visible. The entire image is covered with a semi-transparent blue overlay.

WHY THE EMPLOYEE EXPERIENCE MATTERS IN 2023

What makes the employee experience so important?

Avoid Burnout

The public sector employee experience is particularly important as **burnout levels tend to trend higher** than the private sector **by up to 20%**.

Higher Performance

A 2019 Gartner employee survey showed that **employees who are happy** with their experience at work are **69% more likely to be high performers**.

Save Money

The cost of replacing an individual employee can range from **one-half to two times that employee's annual salary¹**.

Impact Recruiting

Only 40% of public sector employees would recommend a job at their organization to friends and family if they view the employee experience as poor².

Employees who report a positive employee experience:

60%

more likely to report a
high intent to stay at their
current organization

52%

more likely to report high
discretionary effort

69%

more likely to be
a high performer

COMMON BARRIERS TO A POSITIVE PUBLIC SECTOR EMPLOYEE EXPERIENCE

Poll Question

Do you recognize any of the following in your organization?

- A. Our technology is **overly complicated** and not built for the public sector.
- B. We have to **manage multiple systems** for different processes.
- C. There is **no employee self-service**.
- D. All of the above.

Common Challenges

The Wrong Technology

Technology doesn't support public sector needs.

Too Many Systems

Admins have to constantly enter employee info into multiple systems.

No Employee Autonomy

Employees need to contact HR to make simple changes.

The Results

Inefficiency

Private sector tech requiring complicated workarounds leaves employees **unable to perform** how they'd like to.

Frustration and Errors

Instead of spending time on more strategic initiatives, HR **staff become bogged down** in data management.

Lack of Trust

Employees may **resent tedious processes** to make simple changes and interpret this as a lack of trust.

According to SHRM, **highly trusted workplaces see 50% higher employee productivity**, 106% more energy at work, and 13% fewer sick days.

The Cost

Wasted Resources

Inefficient processes **waste time, money, and employee talent.**

Low Engagement

Disengaged employees **perform less efficiently**, and contribute to higher absenteeism and turnover.

Turnover

Unfilled roles leave remaining employees to **pick up the slack**, contributing to a negative cycle.

A man and a woman are sitting at a desk, smiling and talking. The man is on the left, wearing a dark shirt, and the woman is on the right, wearing a light-colored top. They are both looking at each other. On the desk, there is a laptop, a keyboard, a mouse, and some papers. The background is a blurred office setting with shelves. The entire image has a blue overlay.

STRATEGIES TO IMPROVE THE PUBLIC SECTOR EMPLOYEE EXPERIENCE

Focus Points

Use the Right Technology

Increase operational efficiency while eliminating HR stress with **tools built for the public sector**.

Build Employee Trust

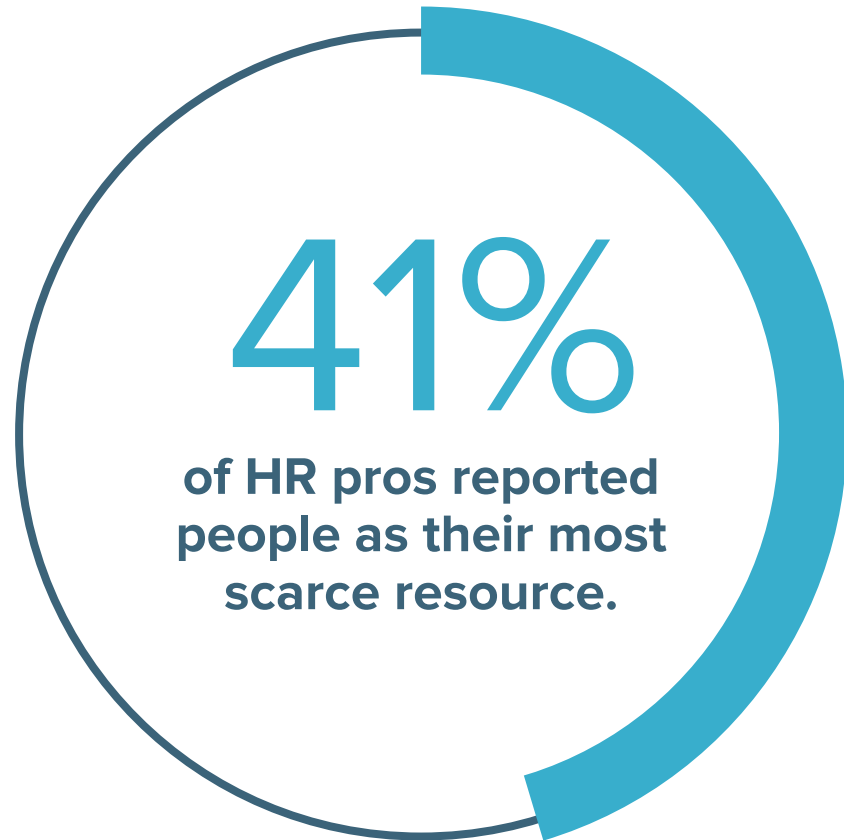

Reduce the burden on HR staff while **building trust and transparency** by offering employee self-service.

Align Your Purpose

Emphasize organizational values and **reinforce how every employee contributes** to the overall mission.

Yet most HR teams spend hours each day on manual data entry tasks in multiple systems.

Give your team time back with HRIS.

MANAGE

Boost HR efficiency while providing a more positive employee experience with HRIS

- **Eliminate multiple systems** with one central hub for employee records, salaries, benefits, and workforce data
- **Built trust and transparency** with employee self-service
- **Meet unique public sector needs** with technology built specifically for you
- **Save time and resources** by automating manual tasks

HRIS Features

E-Signatures

Average organizations **save up to 40 working hours** per month.

Automated Onboarding

Reduces **time-to-productivity by 33 percent** and turnover by up to 30 percent

Employee Self-Service

Reduces time required for administrative tasks by **40 to 60 percent** (saving almost two full hours per day)
